SEPTEMBER 1987

IT'S TIME TO REGISTER FOR THE 1987-88 INDOOR PLAYING SEASON

HOW AND WHEN DO I SIGN UP?

Permanent court time reservations are being accepted NOW for the indoor playing season which starts in October and ends in April, 1988. Check the schedule on another page of this newsletter, select the location, day and time that interests you, and call the captain.

WHAT WILL THIS COST ME?

The cost for permanent court time varies by location, but averages \$4-\$5 per member for two hours, which is 40%-50% less than the usual cost. And without the hundreds of dollars in membership fees.

WHAT HAPPENS IF I TAKE A VACATION OR A TRIP OUT OF TOWN OR IF I HAVE AN EMERGENCY AND CANNOT PLAY?

Players with permanent court time must be prepared to provide a substitute if they cannot play during their committed time. When you line up a substitute, be sure it is understood that if they don't show, you are responsible for payment of the court fee and you face the disappointed players who counted on that fourth person for doubles.

WHAT IF I'M NOT INTERESTED IN A WEEKLY COMMITMENT, BUT WOULD LIKE TO PLAY NOW AND THEN?

If you don't care to sign up for permanent court time, call the court captain and sign up as a substitute. Substitute lists are furnished regular players, substitutes are in demand, and it's likely you will be called.

I STILL HAVE QUESTIONS. WHO ANSWERS THEM?

Court captains can give you details on starting dates, fees, rotation of playing, etc. Remember, each location operates differently.

I'M NEW IN THE CLUB BUT WAS TOLD I COULD HAVE FREE LESSONS. TRUE?

Yes! An important objective of the Club is to encourage more people over 50 to learn tennis. New members are entitled to 12 free sessions of tennis instruction. A nominal \$1.50 fee is charged for the courts each time you show up.

WHERE ARE THESE SESSIONS HELD?

A schedule of lessons and drills is listed on another page of this newsletter. You don't have to register or commit to an entire season--just pack your racket and show up. Balls are provided. If you have questions, call the instructor listed for the location, day and time in which you are interested--they'll be glad to talk with you.

Pure natural liquid made from collagen for intensive skin-care. Without any odorous substances and irritants. For compensation of loss of skin liquid. Allergic reactions or interactions with other materials are not known. Contents: Pure natural collagen—made from cow-skin, glycerin

Beauty care equals moisture preservation.

The Major Concern: After approximately the age of 25 the skin's capacity to produce collagen decreases. It is this collagen, which forms the binding tissue, which harbours moisture. Through the resulting lack of moisture wrinkles begin to form. The skin starts to look rough and dry and may even chap, if the moisture content of the epidermis (stratum corneum) sinks below 10%.

Additionally skin is affected detrimentally by environmental influences, which cause sensitivity and dryness.

We can therefore recommend Collagen Fluid—fast acting and 100% biologically pure—without aromatic additives or allergens—for supplementation of your skin care programme.

Collagen Fluid—the correct moisturising treatment for your skin.

Collagen Fluid—is a protein possessing the quality of maintaining natural skin moisture levels and vital elements, for an extended period. Collagen Fluid—hydrolyses the skin, attracts moisture and vital elements, which lessens susceptibility to the wrinkling process, promotes suppleness, regeneration activity and a healthy skin tone.

Collagen Fluid—is for intensive skin-care application, particularly for the treatment of facial, neck and hand wrinkles... especially if the usual cosmetic treatments have been ineffective. After thorough cleansing of the skin Collagen Fluid should be evenly applied and massaged in. After a short while Collagen Fluid is absorbed into the skin pores. Ultimately your usual skin care regime can be continued (daytime or night creams). We would recommend the use of Collagen Fluid in addition to your regular skin care programme.

Having young looking skin is a dream of all persons. Recent scientific research has identified the Y-factor as a complex of lipophilic substances that are naturally present in the body tissues. These substances are isolated, purified and modified to enhance their absorption into the skin. Once present in various skin layers, these substances act as moisturizers. After longer application the Y-factor promotes the proliferation of various skin cells and stimulate their activity to manufacture skin constituents.

Use: Cleanse your face and neck area thoroughly. After cleansing apply the Y-factor on your face and neck using gentle upward strokes. You'll see a renewed radiance as the Y-factor softens, smoothes and helps your skin look younger. The Y-factor also has a special effective suncreening agent that will help protect your skin.

CRYSTAL ENERGY CONCENTRATE™

IMPROVE STAMINA and a whole lot more. Hippocrates, the acknowledged father of medicine, employed water successfully to treat an assortment of maladies. Fifteen years ago, I couldn't mow a lawn or climb a ladder without severe knee pain and had a 31 year affliction of tennis (snowball) elbow. Distilled water got rid of the knee and elbow problems and last year Jack Dow talked me into taking up tennis. Could be addicting if I had the time.

One of our active STPC members said; "Last summer, my knees were so stiff I couldn't bend them and my doctor said I was ruining them by playing tennis. In about-Sept., I started drinking distilled water with 1 oz of Crystal Energy Concentrate (CEC) per gallon. By February, my knees improved so much I could genuflect for the first time in years.

Pure water is said to be the ultimate solvent, but adding CEC to pure water makes it more active, wetter, from a solvation point of view than any other water at any temperature.

"For athletes and active people of all ages, sustaining the body's water level will forestall or minimize cramps in legs or stomach and will bolster one's power and stamina...Here's a toast to water—the wonder drug: its power is almost endless and its value is often forgotten." (Am Legion Mag.) TRY A BOTTLE OR TWO OF CEC!!

(Tongue-in-Cheek) SELF-RATING GUIDE

- D- Just started with instructions from Percy Hughes/Virginia Morgan's School of Hard Knocks.
- D Graduated from the SOHK and no longer uses the "underhanded serve."
- D+ Readying themselves to take on those snooty Cs. Has been seen rummaging through the attic looking for the tennis balls that the kids used to play with.

- C- Can now locate the courts without referring to "Hudson's Street Guide." Nervous at the net, but enjoys the conversation there... will use the backhand if pressed. Still has glue on soles.
- C Can get rid of the glue, but has trouble with the starter. Can't stand those snooty Bs. Hits a few over the fence.
- C+ Starting to worry about the continental grip. Resents having to leave the court to hunt down the "home run" ball hit by a "C." Reaches over the net for some balls. Becoming more "court-wise." Has a shiny new racquet.

- B- Snooty to the Cs. Beginning to anticipate opponent's shots... tries for placement on easy returns...successful 50%...good defensive lobber...still lacks consistent power...troubles with concentration.
- B Timing much better. Anticipation and movement improving...getting some "sting" on easy returns...glares at opponent at net...beginning to appreciate the joy of hitting a crisp volley. Placing serves now and then.
- B+ Can play with most people and has good movement...volleys well if given the chance...gaining consistency...still having problems with tough returns...can place serves--gets hard first one in 65%...forces some errors...seldom double faults...bold at the net and can use spin on most shots.

- A- Better than average...controls game and has mastered good concentration. Good racquet control. Has learned at least 3 types of spin and mixes them up. Wins good share of points on serve... moves very well.
- A Our very best players...takes a very good shot to pass them. Knows the game thoroughly...very quick with excellent racquet control. Don't get them mad!
- A+ I have no idea (they won't play with me...much less speak to me). They're never home (probably on tour!).

--Annie Nonimus

NOTE: The D+ player has more fun than anyone!!!

Beware the C+ player! They are discovering that there is more to tennis than tying on a pair of sneakers! They can make you look bad on occasion and have been known to hit other than the ball with their racquet!

CHARLIE MILLER MAKES USTA/VOLVO NATIONAL PLAYOFFS

The season for about 100 Senior Tennis Players Club league players in the USTA/Volvo circuit ended in August. It was the first year club members participated.

At a gathering of captains, coordinator Nancy Eckmann presented an award to men's senior division captain Charlie Miller, whose team will travel to Tucson for the national playoffs October 8-11. Miller is 78 and his team's performance undoubtedly will encourage many other club members to participate next year.

Percy Hughes is in touch with the team and giving them coaching. Good luck, Charlie, at the playoffs!

SUMMER EVENTS HUGE SUCCESSES MORE TO COME

July greeted us with high outdoor temperatures and humidity, but tennis addicts that we seniors are, we filled our water bottles, donned our visors and headed for the courts.

Both of the scheduled activities in July were outstanding and attended at full capacity. At 8 a.m. on July 19 we met at the Flagship Athletic Club for tennis in 90° weather. After two hours on the courts we adjourned to the air conditioned dining room for a truly grand and relaxing brunch. Most of us still had enough energy to make several trips to the buffet tables!

On the evening of July 29, a few days after "the rainstorm of the century," and in spite of France Avenue South being under water, a capacity number turned out for tennis and a picnic supper at the Normandale Community College courts in Bloomington. Again, sweat bands, visors, iced tea and water were the order of the day as the temperature and humidity soared. Never a group to quit, we stayed till darkness forced us off the courts.

How exciting that not one scheduled player canceled out on either occasion! Thanks again to all who organized and assisted in making these events happen and to all of you enthusiastic tennis players.

As we move indoors this fall and winter, a number of tennis activities have been scheduled. After talking with managers at clubs in Minneapolis and Saint Paul and keeping in mind our need for kitchen facilities, the number of courts and the overall cost, the best possible choice available to us is the Hiway 494-Crosstown Racquet Club in Eden Prairie. This newly opened facility is the ultimate in the Twin Cities area. Our rental of the courts includes the use of a complete kitchen so we can bring in our own food and beverages, party room, lounge area, indoor pool, whirlpools, saunas and walking and running tracks at no additional cost.

TO IMPROVE THE GAME WAS TENNIS CAMP'S AIM

Back by popular demand, the second tennis camp was held at Mankato State University in August in two sessions, 39 people in the first, 57 in the second.

One of the Vikings coaches was heard to remark, "Those seniors are something. They're on the courts all the time." As indeed we were. Some played at six (before breakfast), there were morning clinics, afternoon drills, and we could play evenings, too. Heat and humidity didn't matter--it was tennis, tennis, tennis. What other camp could provide unlimited tennis!

Basic strokes, singles and doubles strategies, videotapes and critiques, round robins--we did it all under the capable direction of Roger Boyer, Connie Custodio, Percy Hughes, Virginia Morgan, Ginny Owens and Joe Walsh.

Fortified with the sumptuous food in the cafeteria, even BTL (bigger than Lund's) ice cream cones after our last dinner together, the Crawford Hall "kids" had the energy to play golf, bowl, swim, attend a play, dance, socialize and each morning share spiritual devotion with our own Reverend Hank Kleinert. By the way, when trophies were awarded, the three women who won are regular players at Augsburg Park in Richfield.

It was fun being on campus with such diverse people as the Vikings, the Mankato State U football players, the freshmen for orientation, and other seniors in Elder-hostel groups.

Thanks, Florence Habegger, Maria Johnson, Adeline Levin and Chuck Supplee for making it happen. Doris and Rollie Larson said it was "even better than last year." We loved the warm feeling of family and fellowship and when it was over, Elda Cahill said it all when she called her sister, Dorothy Ayres, from work the next day and said, "I'm lonely."

NEITHER RAIN NOR STORM NOR DARK OF NIGHT.....

The night of the big storm, July 22, Bill Storie was hosting a tennis picnic for the USTA/Volvo team and spouses to "celebrate" taking third place.

As the team gathered at Triangle Park in Rogers, so did large black clouds. By 6:30, the appointed hour, it was raining. A few minutes later, it poured. Not to be daunted by this adversity, they formed a caravan and moved to indoor courts at Daytona, only to find an electrical outage had doused the lights. We'll picnic anyway! By the time the food was assembled (indoors) a stroke of luck. The lights came on. They ate and played tennis until ten o'clock while it stormed.

It seems Nero did something like this while Rome burned.
